

~~SECRET~~

A. Printing Services Division

The 173 million impressions produced by Printing Services Division in FY 67 represent a 5% increase over the number produced in FY 66--165 million but is considerably under the FY 1963 peak of over 200 million impressions. Total printing impressions for PSD, FY 63 through FY 67 are:

<u>FY</u>	<u>No of Impressions (millions)</u>
63	203
64	189*
65	152
66	165
67	173

Handwritten: 68-185
69-173

No major increase in number of impressions is foreseen through FY 1970 with the possible exception of

25X1

It would appear that Agency requirements on PSD have stabilized at between 150 and 200 million impressions annually which is within its present capability. The problem is, thus, more one of seeking increased efficiency than increased capacity.

A breakdown of total impressions and cost based on total PSD FY 1967 costs at the directorate level shows the following:

*The Report on Printing appeared December 1963.

TOTAL	173	100		100

25X1

Appendix A shows PSD's FY 67 actual total costs identified against specific users.

I. DD/I

The DD/I is far and away the largest user of PSD services both in number of impressions and in total cost. Four large programs are identified as making up some 93% of DD/I's share of PSD's total cost: FBIS program; CRS requirements; current intelligence publications; and the costliest, the NIS program.

25X1C4a

(A) FBIS Program

This is a large quantity, low cost printing operation which is performed by the General Printing Plant of PSD located on the Ground Floor of the Headquarters Building. It is estimated that the

****PSD's FY 67 actual total costs identified against specific users based on actual percentages of direct costs. The indirect PSD costs were prorated to using directorates on an identical basis with their direct costs.**
